

# Leela Krishna

SOFTWARE ENGINEER | FRONT END DEVELOPER

## Profile

Experienced software engineer and front-end developer with a proven track record of creating dynamic and user-friendly applications. Skilled in HTML, CSS, TypeScript, Jasmine, and various frameworks such as Angular 15. Have worked on open source projects using React, Tailwind, and TypeScript. Possess intermediate knowledge of Python. Strong problem-solving abilities and a passion for staying updated on the latest technologies and industry trends. Committed to delivering high-quality solutions that exceed client expectations. Ready to bring my expertise to contribute to the success of your organization.

## Employment History

### Software Engineer | Front End Developer, DELL Technologies, Bangalore

08/2021 - Present

- Developed the Angular Application end-to-end which has features like uploading and downloading Excel files and CRUD operations in SQL server from uploaded Excel data.
- Driving the best technology and software development practices in the team with passion and enthusiasm.
- Experience engineering software systems of medium-to-large scope and complexity.
- Developed a Python REST API utilizing the Flask framework to enable efficient data transmission and interaction.
- Established deployment pipelines using Docker and Kubernetes, ensuring seamless deployment and scalability of the application.
- We are implementing **automated unit testing** using Jasmine, and Karma.
- Drive strong collaboration with other engineers, designers, and managers to understand user pain points and iterate on great solutions.
- Understanding of modern frontend ecosystem, including but not limited to bundling, linting, testing, and releasing.
- Worked with the CICD pipeline to deploy the application into the cloud with a CICD maturity score above 85%.
- Experience working with large e-commerce websites and their underlying databases.
- Ability to communicate with remote teams in an effective manner.

### Data Analyst, Infosys BPM PVT LTD, Bangalore

05/2019 - 07/2021
